Collectible Danish Design Icons

Boyhood is a danish design brand who design and produce Contemporary Collectible Wooden Icons.

Our vision

To design and produce high quality contemporary design collectibles with a stroke of humor and childhood memories and distributing these in select retail stores globally.

Collabs With Global Licensing Partners

We are proud to have teamed up with some of the world's most recognized and iconic brands to make unique contemporary collectible wooden figurines.

This concept is unique - wooden licensed collectibles exclusively made by solid wood has not been seen before!

We create and produce the figurines in close collaboration with each brand to ensure the correct balance between recognizability and design. We strive to add our strong Scandinavian design tradition into the process and the design.

We continuously work on making new exiting collabs with both global and local brands, and our ambition is to be market leaders of wooden licensed exclusive collectible figurines.

Fröbel Star Christmas Ornament

As a child you probably experienced that grownups became more cheerful around Christmas time and found the energy to bake and create Christmas decorations. One of the most beloved home-made Christmas decorations is the braided, sixteen-pointed Fröbelstar, folded by strips of paper.

The star has now become a luminous memory of the childhood joy of Christmas – here made in solid oak with soft edges. It finds its natural place in the windowsill or on the Christmas table.
