DANISH DESIGN ORIGINALS

At novoform we are passionate about design. Every single detail is scrutinized until the perfect combination of aesthetics, function and craftsmanship is achieved.

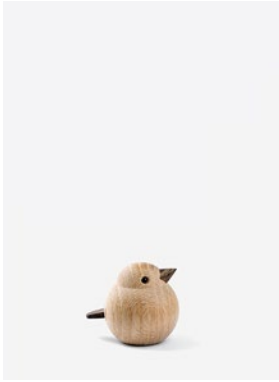

As a Danish design company, we stand on a solid foundation of Scandinavian design traditions. Our strong heritage is a great inspiration, but also comes with a responsibility to carry the torch forward and to do our best every single day.

With emphasis on natural materials and soft colors, we create our collections with inspiration drawn from everyday life, great people, and the beauty of nature.

We aim to keep things simple and develop desirable products that are worth keeping for a long time.

We like to call them Danish Design Originals.

Kristian Jakobsen
